

RITRANSPARENCY REPORT 2020

IVM Caring Capital

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the PRI website, ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the reporting period specified above. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information.

PRI disclaimer

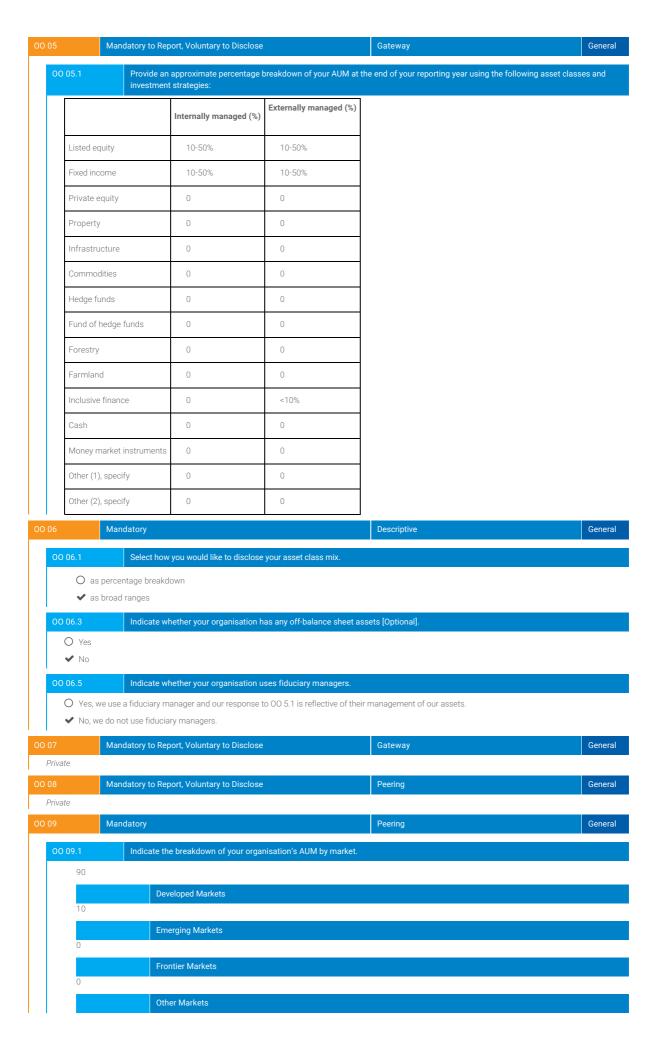

This document presents information reported directly by signatories. This information has not been audited by the PRI Secretariat or any other party acting on their behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented, and no responsibility or liability can be accepted for any error or omission.

Within the selection process we look at ESG policy of the manager and look if the manager is a UNPRI signatory. A selection criterium is that voting and engagement on ESG issues is a part of the policy of the manager. We ask the manager to report both on their ESG policy and on their voting and engagement activities. We report that to our clients.

FI 01.2 Describe your reasons for choosing a particular ESG incorporation strategy and how combinations of strategies are used.

We use Reuters to make a best in class selection of the lboxx investment grade universe. For externally managed investments we apply the same criteria for selection of asset managers as we do with the selection of managers for equities.

Thematic we have invested in a Micro Finance Fund, a Social Bond Fund and an Impact Investing Fund for our clients.
